Academic Engagement - "I can"

Math Fractions : A quick and simple way for students to learn and understand fractions with interactive demonstrations, hands-on exercises, and simple quizzes.

Math Solver : Math Solver helps you solve mathematical equations. It shows you the answer to the problem as well as the steps used in the solution.

iAssociate 2 : A word association game, where players have to figure out which words or phrases are associated to each other.

Comic Life : Enjoyable writing and comic creation app, including fun and quirky templates and easy-to-use tools.

High School Writing : Dual view writing app with side-by-side writing tools, side-by-side web browsers, and dual views of outlines and essays. Supports a wide variety of essay styles.

Dragon Dictation : A speech-to-text tool where students can write by speaking to the mobile device and having their speech transcribed into text.

Tools 4 Students : Features 25 graphic organizers for students to use to organize their thinking while reading or preparing to write.

Notability : Notability integrates handwriting, PDF annotation, typing, recording, and organizing tools to help students take notes effectively.

Speak It! : Have Speak it read your emails, favorite news articles, documents and more while you exit the app and do other things.

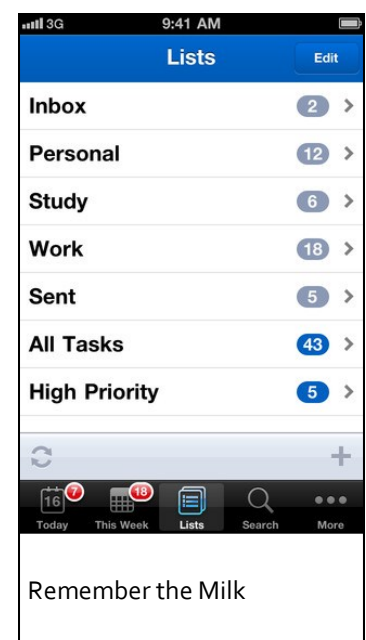

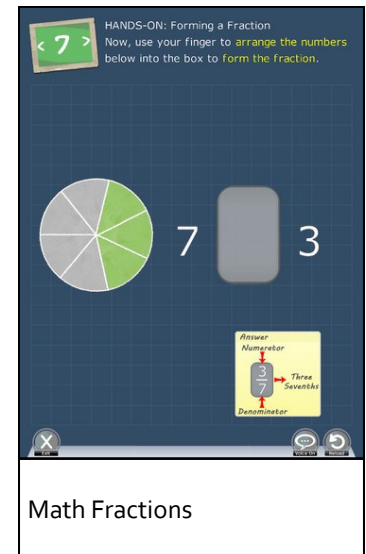

Remember the Milk : A task and time management tool that can be used on the iPad and syncs with the web-based site. Get reminders via email, SMS, and instant messages.

Diigo : A social bookmarking app and website service that allows you to annotate web pages. Great as a research tool.

BrainPop : A go-to resource for free digital content. Topics include digital etiquette, cyber-bullying, and online safety, as well as math, science, history, and more.

Social Engagement - "I belong"

World Customs & Cultures : Explore cultural information and facts for over 165 countries. Topics include greetings, communication styles, gender issues, gestures, and taboos.

Being Global : An interactive, multi-media, and bilingual app kit for parents and educators to support learning about diversity in traditions, religions, and values.

Who Am I? Race & Diversity : An educational game for two players that teaches kids to think responsibly.

ClassDojo : A web-based real-time behavior management program for the classroom. The mobile version is <http://mobile.classdojo.com> . Can be projected for class view.

Social Adventures : Provides teachers and parents a collection of activity descriptions for teaching social skills, perspective, and more.

Jot! Collaborative Whiteboard : An interactive whiteboard with support for live online collaboration between students, or students and teachers.

VoiceThread : Collaborate and create dynamic conversations around documents, snapshots, diagrams, drawings, recordings, and videos.

Adobe Connect Mobile : Students can work with each other in a virtual meeting space and share audio, video, and text chat. A 3-person free version of Connect is available.

eClicker Presenter & Audience : Apps that provide live group polling using mobile devices.

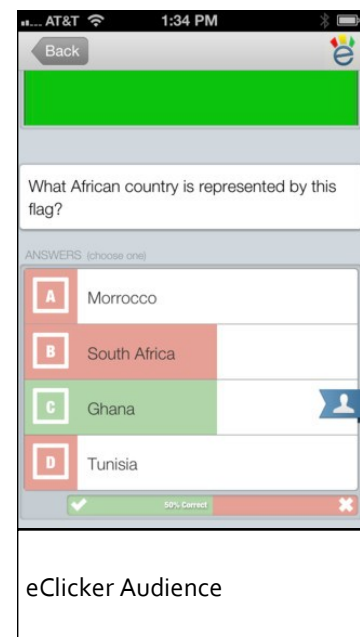

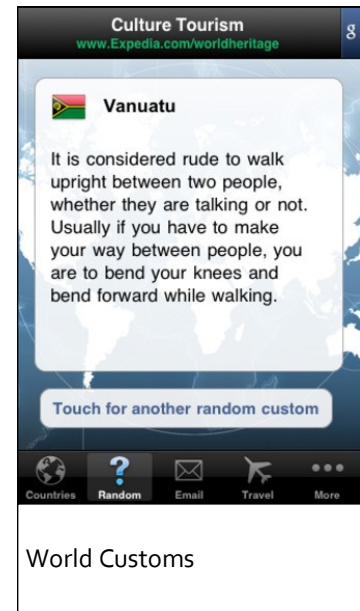

Twitter : Follow your interests, instant updates from your friends, industry experts, favorite celebrities, and what's happening around the world.

Facebook : Facebook lets you stay connected and share with friends on the go. Start a chat, keep up with friends' photos and status updates.

Friends Aloud : A personalized "News Radio" that broadcasts your friends' news, then lets you dictate your responses via automated speech recognition.

Psychological Engagement - "I want to"

Social Skills Builder : A series of interactive videos to teach key social thinking, language, and behavior that is critical to everyday living.

Awareness : This app randomly intercepts your daily routine and prompts you to get in touch with what you are feeling. Good reporting tools. Includes eastern religious influences.

Anger Thermometer : A self-monitoring tool to help students monitor their emotions and feelings.

MeMoves : An app that combines music, movements, and images to improve attention, focus, and mood.

Breathe2 Relax : A stress management tool that provides detailed information on the effects of stress on the body.

iStudiez Pro : A schedule and task management app that allows students to enter their class schedule and homework assignments.

Complete Class Organizer : Designed for students to manage classes throughout a school career. It will track all classes, notes, and grades.

MyLifeOrganized : Organize tasks into projects and break down large tasks until you have reasonably sized actions. Allows users to build a custom task management system.

Kids Calendar : A calendar for children between 5 and 12 years of age. Young students can use this calendar independently.

My First Calendar : Allows children to customize their daily calendars, save, and review them, along with doodles.

Set Goal for iPad : Set goals and tasks from the category list or you can add your own category according to your needs and requirements.

iHomework : Keep up-to-date with schoolwork, grades, to-do's, teacher's information, and almost everything else you need during the school year.

Social Skills Builder
